Details Apply See why Food Processing Magazine honored Ecolab Pest Elimination as The Top Pest Management Company! Ecolab is seeking Pest Control Technicians to join its industry leading Pest Elimination team. In this position, you will provide timely and cost effective pest detection, elimination and prevention solutions to an established route of commercial customers. You'll provide brand protection to your around-the-clock customers including commercial businesses such as restaurants, hotels, hospitals, nursing homes, schools, retail stores, and food and beverage processing plants. Make your service and sales expertise work for you with Ecolab Pest Elimination. What's in it For You: Enjoy a paid training program allowing you to learn from successful professionals Receive a company service vehicle for business use Carve out a long term, advanced career path in service, sales, or management Flexible, independent work environment where you will manage a monthly schedule Access to best in class resources, tools, and technology Grow your income as you drive growth Thrive in a company that values a culture of safety to include top-notch safety training and personal protection equipment Comprehensive benefits package starting day 1 of employment- medical, dental, vision, matching 401k, company paid pension, stock purchase plan, tuition reimbursement and more! What You Will Do: Establish effective working relationships with a variety of customers and partner with them on best practices to identify and solve pest problems. Keep abreast of Ecolab's product/service offerings and industry conditions, to enhance service and sales of pest prevention/elimination solutions. Use handheld computerized equipment to manage service and document structural, sanitation and pest issues. This position is classified as heavy work Position Details: Candidate must reside in: Knoxville TN and surrounding area Route territory will include: Knoxville TN and surrounding area Work week and shift: Combination shift As an Industry leader, it is no surprise Ecolab offers a world class training program designed to provide the tools and resources for you to be one of the best in your field. During your training program you will be required to travel to Ecolab Corporate Headquarters in Saint Paul, Minnesota for 2 of the 7 weeks. Travel to Saint Paul will be on Week 4 and Week 7. The remaining weeks will be in-field training. Ecolab will arrange and pay for your travel and certain travel related expenses. This position requires successful completion of the 7-week in-field and classroom training program in order to maintain employment. This position requires successful completion of the 7-week in-field and classroom training program in order to maintain employment. Minimum Qualifications: High school diploma or equivalent Two years work experience as a Pest Control Technician or Driver's License with an acceptable motor vehicle record, and driver's license to maintain a company vehicle
